EXAMINER'S COMMENT

1. The information disclosure statement (IDS) submitted on 07 February 2005 has been considered by the examiner.

The invention as claimed is distinguished over references EP 686,662 A, WO 03/067680 A, WO 01/20691 A, and WO 03/067333 A cited as "X" references in the international search report because these references fail to teach an article comprising an organic electroconductive polymer layer on a substrate wherein the polymer has a conductivity of $10^6 \Omega$ or less that has been printed with a pattern of a printing solution such that the resistivity of the printed areas decreases by at least 1000.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Zacharia whose telephone number is (571) 272-1518. The examiner can normally be reached on Monday through Friday from 9 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney, can be reached at (571) 272-1284. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
